Spring MVC

Spring Framework's Web Module

What is MVC

- MVC is a common design pattern for GUI and Web Applications.
- M = Model
- V = View
- C = Controller

MVC

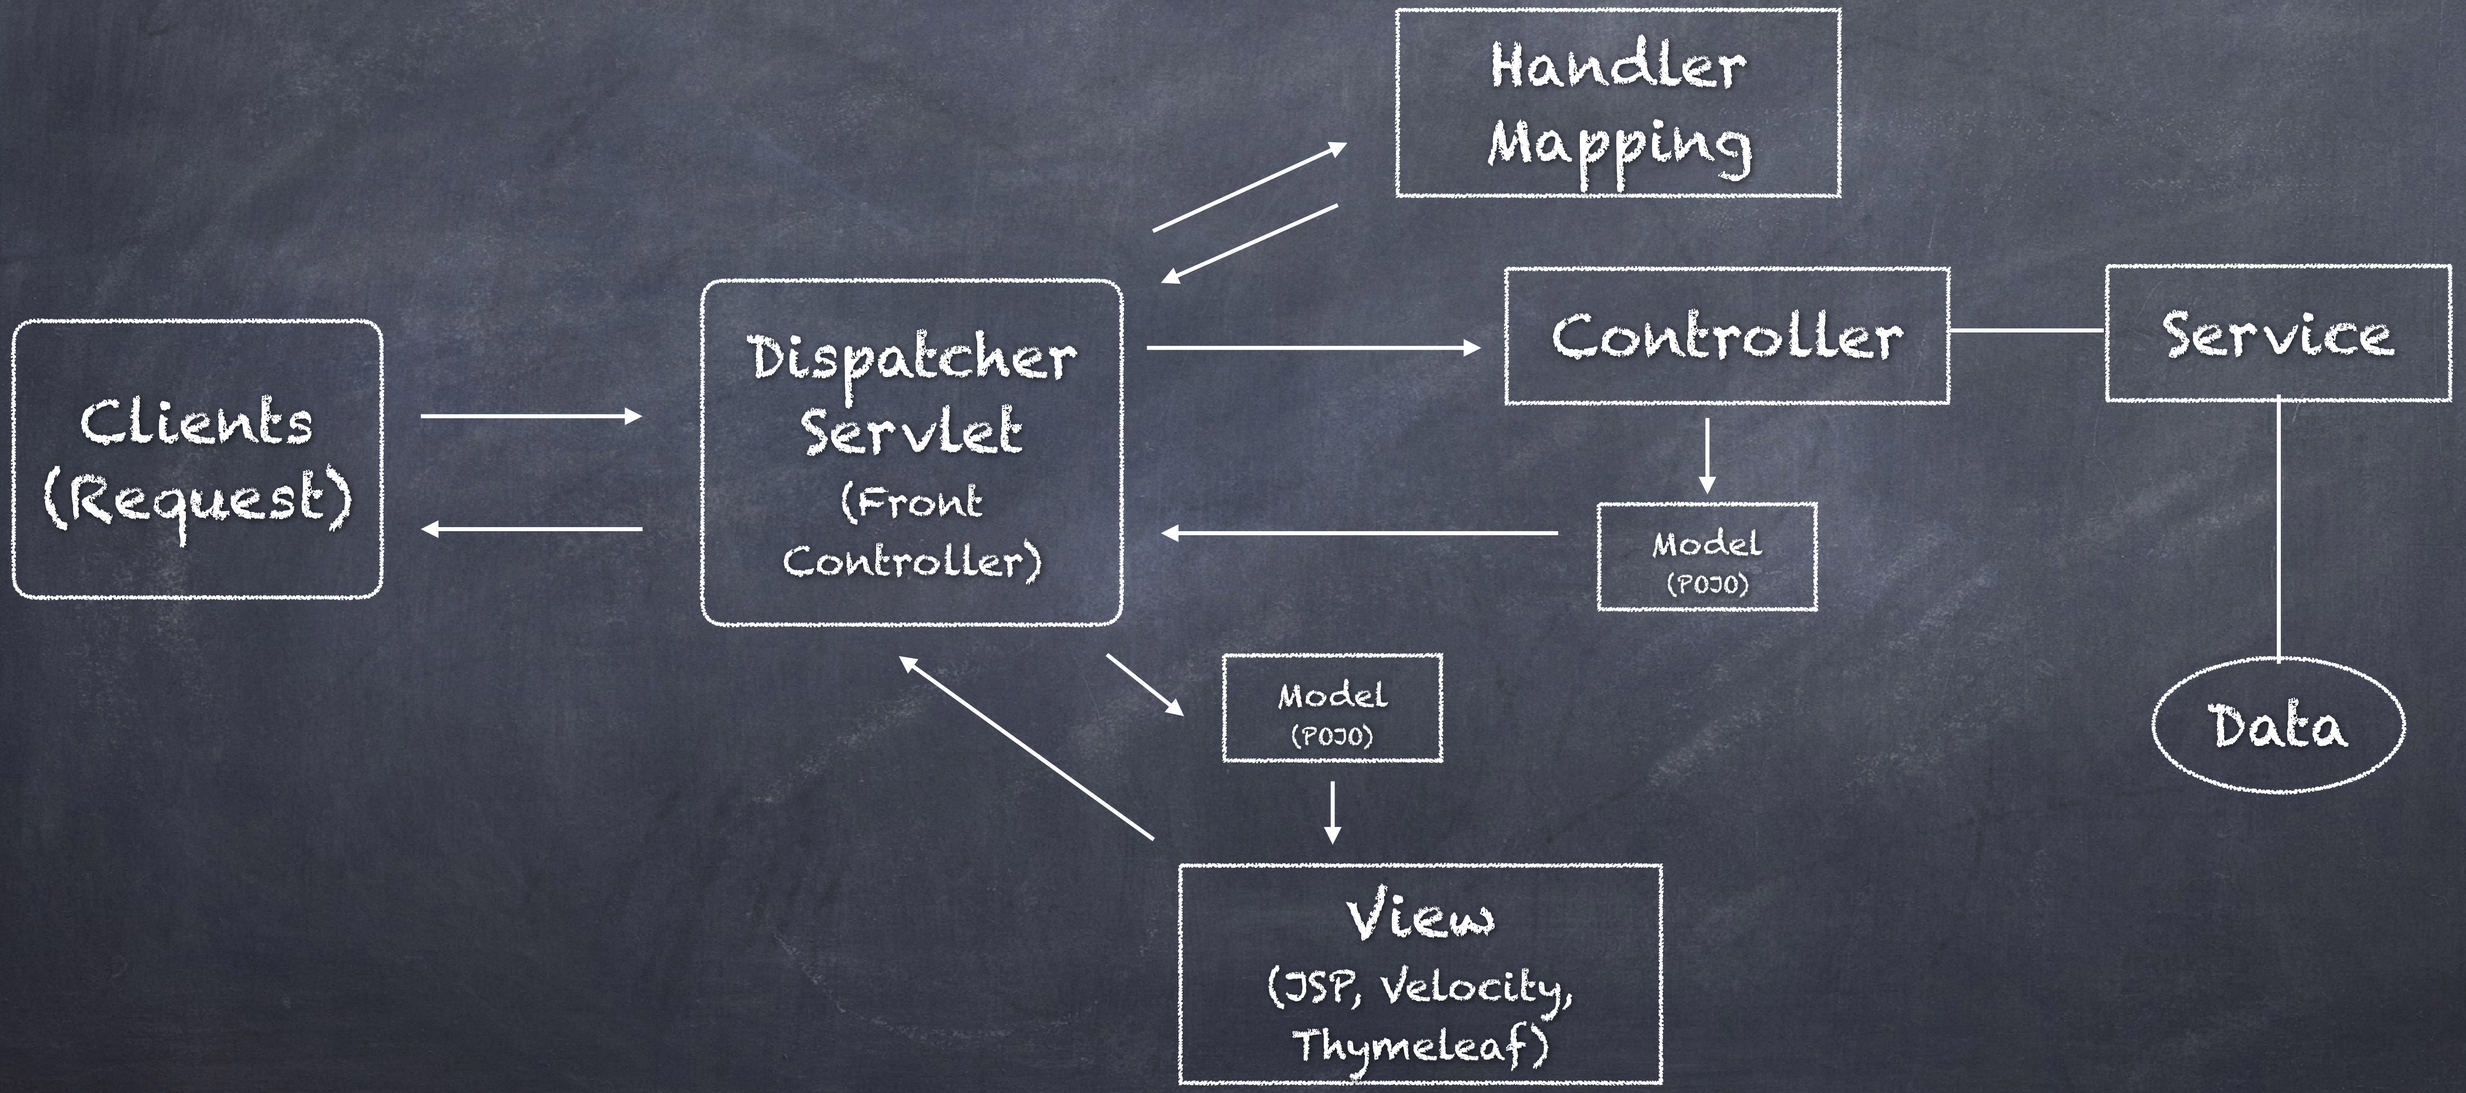
Model

Clients (Request)

Controller

View

Spring MVC



Handler Mapping
Clients (Request)
Dispatcher Servlet (Front Controller)
Controller
Service
Model (POJO)
Model (POJO)
Data
View (JSP, Velocity, Thymeleaf)
